A Compliment to Paducah...

When we recommend an article or prodnet it is accepted without question that we have thoroughly satisfied ourselves, by severe tests, of its value and worth, and that it is all that it may claim to be. The foregoing is sufficient to illustrate our position, and to justify what we may say when we make specific recommendation and extend our editorial commendations to the

Brook Hill Garrard county, Kentucky, whiskey, distilled by Priedman, Keiler & Co., of Padneali, Ky. Both dealers and consumers can rely upon the character of the products of this firm, both in general and in particular, and we have no hesitancy in recommending them to our readers. Although we have no personal interest in the matter whatsoever, we believe in the policy, "merit to whom merit is due." In the light of too frequent adulterations and preparations of liquors, it beliooves every one to scrutinize every brand, but, from the lack of proper facilities, such precautions are often neglected. To supply such want we have caused to be made close and critical examination and a searching chemical analysis, with the intertion of printing the same, whether favorable or otherwise. The result, however, leaves us but one thing to do, and that is to state, regarding the Brook Hill Whiskey, that purer or better liquor has never been placed upon the market, and we recommend same to our readers in unqualified terms and advise them to place an order, at least for a trial, as their product is recommended by physicians as an aid to digestion, and is placed on our list of pure and wholesome food supplies.
